

Misinformation is killing the vaping industry.

Vaping Advocacy and Education Project (VAEP) is a nonprofit set up and run by registered nurses to provide free vaping educational resources.

Our vision:
make the truth
about vaping
common knowledge.

We aim to create support from the public and health professionals through mass education.

How you can help us succeed:

- **Join our community** by putting your business on the VAEP Map.
- Find the button on the bottom of our webpages and **make a donation**.
- **Let others know** about VAEP and our efforts to overcome misinformation.

Visit our Support VAEP page at VAEPworld.com
